Perfect for homeschoolers of all year levels to feel recognised for their learning!

For homeschoolers and schoolchildren alike: sometimes there are children who don't participate in formal awards ceremonies.

This **certificate** tells them that you see them. That you acknowledge and are proud of their efforts throughout the year / term / semester.

Completely editable, this document should be tailored with their name, the time period and specific achievements in all areas they may apply themselves - **enrichment & curriculum**.

The list of achievements is a **bullet list** in columns, so please remember that the lists will shift as you delete/add items, but if you know Word Documents you will be fine.

I hope your children enjoy this formal celebration of their hard work - why not present it at a family gathering, or a special end-of-year family supper?

If you enjoy it, please remember to rate it on TPT 😊
Thank you!
